

# Paper Guidelines

These are some ideas for your first paper: What's happening with the economy?

You will want to include in your paper:

- 1) Definition of the Stimulus Package
- 2) How did we as a nation come to this (Loans)?
- 3) Political aspect of the problem.
- 4) What/who are the companies involved (insurance companies) What is a structured investment vehicle?
- 5) What is the effect on the rest of the world (i.e. foreign investments- Why is the dollar less than the euro)
- 6) What is the plan, the hope the prayer for our economy, and do you think that it's reasonable?

Be sure and site your websites. All I'm asking for is the link- Copy the address bar and paste it on your bibliography.

## Some things to keep in mind:

- ✓ Be sure to double space.
- ✓ Two handwritten pages usually equals 1 typed double spaced page.
- ✓ Your bibliography is not part your paper.
- ✓ Every time you present a new main idea start a new paragraph.
- ✓ Put your name on it
- ✓ E-mail it to me as an attachment
